CONTENTS.

VOL. XXIX.

	Page
Abridgement of long division	153
Accident at Zell	433
Accumulators and Metallodion	332
Adhesive power of nails and screws	263
Alloys of metals	524
Ancient bridge	172
Anemometric observations	124
Application of electricity to explosives	58
Arches	449
Architecture and earthquakes	413
Architecture and physical science	244
Architecture, solidity in	430
Armor, hard	77
Armor	488
Artificial leather	88
Asphalt mortar	264
Atlantic slope, water power of	416
Austrian telephonic service	232
Back pressure on valves	34
Basic Bessemer steel	174
Basic furnace linings	88
Basic steel at Amsterdam	260
Belting, transmission of power by	188
Berlin testing establishment	440
Bichromate of potash battery	48
Blasting paper	503
Boiler explosion	259
Book Notices.	
Alexander, T. and Thomson A. W., Applied Mechanics	262
Beckett, Sir Edmund, Clocks, Watches and Bells	176
Buchan, Wm. P., Plumbing	176
Burr, Wm. H., C. E., Materials of Engineering	438
Briggs, Robert, M. I. C. E., Steam-heating	261
Davis, Charles, LL. D., Elements of Surveying	438
Dixon, D. B., Machinists' and Engineers' Calculator	438
Du Moncel, Th., Et Geraldy Frank, L'electricitie Comme Force Motrice	87
Haeckel, Ernst, Visit to Ceylon	175
Hill, John W., Manual for Engineers	262
Hodgson, Fred. T., Handsaws	176
Hodgson, Fred. T., Practical Carpentry	86
Holmes, A. B., Electric Lighting	261
Hospitalier, E. Applications of Electricity	437
Hospitalier, E., Formulaire Practique de L'electriciti.e.	87
Joly, N. Man before Metals	262
Kingsley, J. S., Naturalist's Assistant	351
M'Alpine, D., Zoological Atlases	438
Mascart, E. and Joubert, J., Electricity and Magnetism	437
Maynard, C. J., Manual of Taxidermy	86
Muller, Prof. H., Fertilization of Flowers	351
Nichols, Wm. R., Water Supply	261
Saunier, Claudius, Watchmaker's Handbook	351
Seaton, A. E. Marine Engineering	263
Spang, H. W., Lightning Protection	350
Tevfik, Hussein, Linear Algebra	351
Thompson, S. P., B. A., Telephone and its Inventor	351
Thurston, Robt., A. M., C. E., Materials of Engineering, Part II	87
Williams, Albert, Mineral Products of the United States	262
Bower-Barff process	370
Breadth in architecture	430
Bridge at Spandau	83
Bridge over the Straits of Messina	434
Breech-loading guns	348
Bunsen cells	506
Burners for gas	481
Calibration of thermometer	1
Canal projects of the day	8
Canal, Suez; a second	250
Capacity of storage reservoir	67
Carpentry of the Greeks and Romans	74
Castings, steel, 'gas from	64
Cast iron of unusual strength	350
Cathedral glass	523
Cement, Portland	233
Central Bengal railway	174
Centrifugal force	507
Centrifugal ventilators for mines	222
Change in tonnage of sea vessels	521
Chimneys, tall	216
Compass, the pole	496
Compass in iron ships	253
Compound armor plates	174
Concretive division	153
Construction of reservoirs	32
Consumption of coke	85
Corrosion of iron and steel, 210,	306
Cottran locomotive	174
Cuban woods, strength of	442
Cuban woods, strength of	417
Current-meter measurements of the Rhine	151
Currents, induced	42
Curves railway, resistance on	135
Dangers to health	523
Deepening rivers	434
Defense of harbors	265
Definition of force	426
Derailments	478
Determination of dimensions 310,	385
Development of electric lighting	280
Deviations of compass in iron ships	253
Dimensions of tall chimneys	216
Discovery of gunpowder	125
Dr. Joule's experiments	524
Dynamic electricity	513
Earthquakes and architecture	413
Earth torpedoes in Switzerland	437
Effect of sulphur and copper on steel	173
Effect of the earth's rotation	227
Eighty-one-ton guns at Dover	349
Elastic Lacquer	88
Electricity applied to explosive purposes	58
Electricity as a motive power	161
Electricity in theory and practice	523
Electricity, static and dynamic	513
Electricity, measurement of	319
Electric lighting	280
Electric lighting, points in	394
Electric tram-cars in Paris	434
Electromotive force of batteries	352
Electromotive force of Bunsen cells	505
Electro magnets, winding of	505
Energy, transmission of	460
Engineering exhibitions	351
Engine, Gaskell	297
Engines, marine	192
Engine, two-cylinder	329, 353
Engine, Worthington	80
Equator, instrumental	439
Equilibrium line for broad-seated valves	34
Errors in spirit leveling	290
Experiments on iron and mild steel	379
Experiments with sleepers	258
Exploration, submarine	434
Explosion of a boiler	259
Explosives	100
Ferro-prussiate multiplying process	352
Field guns, new	86
Force, definition of	426
Forestry	504
Formulæ for pillars	129
Formula for long columns	375
Formations on piston of Woolf engine	475
Forth bridge	173, 348
Furnaces, regenerative	511
French academy prizes	88
French practice proportioning arches	449
French railroad mileage	259
Gas from steel castings	64
Gas burners	481
Gaskell pumping engine	297
Geometry of space	137
German tests of rails	498
Grecian carpentry and masonry	74
Gunpowder magazines	476
Gunpowder, discovery of	125
Hansen's method of calibration	1
Harbors, defense of	265
Hard armor	77
Hardening of steel	435
Hardness of common vessels	264
Hektograph	440
Improvements in welding	350
Induced currents	42
Inland sea of Tunis	173

	Page
Inspection of public works	204
Instantaneous formation of steam	176
Instrumental equator	439
Iron and steel, corrosion of	210
Iron and steel tests	498
Iron and steel institute	84
Iron, corrosion of	206
Iron experiments on	379
Iron, new	84
Iron ships, deviation of compass in	253
Japan, manufacture of camphor in	176
Lake tributaries	471
Lake Winnipeg	83
Leveling, errors in	290
Liability to earthquakes	413
Light, electric	280
Lighthouses on the Red sea	347
Lighting, electric, points in	394
Lighting railroad cars	264
Lights, measurements of	148
Light standards	523
Load line for ships	228
Locomotives on German railways	52
Locomotive signalling apparatus	258
London water supply	524
London water	524
Long column formula	375
Long division, abridgment of	158
Lubricants	485
Magazines for gunpowder	476
Magnetic field, induced currents in	42
Magnetization of iron and steel	84
Manufacture of camphor in Japan	176
Marine engines, power of	192
Marine signalling apparatus	85
Masonry and carpentry	74
Matter of space	49
Measurement of electricity	319
Measurements of lights	148
Measurements of river currents	151
Method of sinking shafts	494
Methods of determining dimensions	310, 885
Midland Railway Co. Pullman cars	52
Molecular rigidity of steel	54
Monckton's Practical geometry	522
Motive power, electrical	161
Mountains reforested	504
Mouths of lake tributaries	491
Natural oil	7
New publications	522
New artillery for the Russian navy	521
New Suez canal	82
Nordenfeldt machine guns	436
Ohm and "mho"	264
Panama ship canal	256
Paris, electric tram-cars in	434
Peaty rivers, self-purification of	17
Phosphor copper	440
Photometric lights measurements of	148
Physical science	244
Pillars, formulæ for	129
Points in electric lighting	394
Pole compass	496
Polluted water	523
Population of the earth	351
Portland cement	233
Power, electrical	161
Power of marine engines	192
Power, transmission of, by belting	188
Process, Bower-Barff	370
Progress of telegraphy	177
Properties of Cuban wood	443
Proportions of arches	449
Protection of iron from rust	534
Projects, canal	8
Public works, inspection of	204
Pumping engine	297
Pumping engine at Buffalo	80
Quick railway service	259
Quick sands, treatment of	494
Radiation of silver in solidifying	88
Railway for Paris	164
Railway improvements	267
Railway mileage of the world	174
Railways of England and Wales	63
Railway statistics in India	84
Railway turnouts	89
Rails, tests of	496
Rational formulæ for pillars	129
REPORTS OF ENGINEERING SOCIETIES:	
American Institute of Mining Engineers	256
American Society of Civil Engineers	172, 347, 432, 516
American Society of Mechanical Engineers	172
Engineers Club of Philadelphia	81, 517
Reforesting mountains	504
Regulation of the Tiber	501
Regenerative furnaces	511
Relation of static to dynamic electricity	513
Reservoir construction	32
Reservoirs, storage	67
Resistance on railway curves	83, 135
Resistance of Bunsen cells	506
Rigidity of tempered steel	54
River Tiber	501
Rivers, self-purification of	17
Robinson's long column formula	375
Roman masonry and carpentry	74
Rotation of the earth	327
Rotation and derailments	478
Russian basic steel	261
Russian railways	256
San Francisco water supply	410
Science, physical	244
Second Suez canal	250
Secretion of gas in steel castings	64
Self-purification of peaty rivers	17
Separate sewerage system	256
Shearing hot steel blooms	523
Ships, load-line for	228
Silica and lime water	352
Solidity and breadth in architecture	430
Sonorous vibrations through gases	88
South American timber	440
South Pass improvements	257
Space, geometry of	137
Space, matter of	49
Speed of marine engines	192
Spirit leveling, errors in	290
Square rope belts	249
Standard wire gauge	436
Steel, corrosion of	210, 306
Steel, experiments on	379
Steel, hardening of	435
Steel in bridges	191
Steel in modern guns	259
Steel, rigidity of	54
Steel and iron tests	498
Static electricity	518
Strength of Cuban woods	443
Steel *vs.* compound armor	488
Strength of Cuban woods	417
Strength of Portland cement	233
Submarine exploration	434
Submarine mines	265
Substitute for gutta percha	264
Subway for gas, water and electric mains	176
Suez canal	82
Tall chimneys	216
Tay bridge	82
Tehuantepec ship railroad	351
Telegraphy, progress of	177
Telephonic service, Austrian	232
Telpherage	508
Tempered steel, rigidity of	54
Terrestrial deflections	478
Testing Portland cement	233
The Dower Thames Valley Sewage	518
The hydrometer	518
The position of the steel rail trade	519
The forty-eight ton gun	521
The chemist's manual	523
Thermometer, calibration of	1
Tiber, discharge of	501
Timber, South American	440
Trying gunpowder magazines	476
Transmission of energy	460
Transmission of power by belting	188
Turnouts on railways	89
Two-cylinder compound engine	329, 353
Valves, back pressure on	34
Ventilators for mines	222
Water power of Atlantic slope	416
Water supply of San Francisco	410
Water supply, storage reservoirs	67
Watery ground, shafts in	494
Welding, improvements in	350
Who discovered gunpowder?	125
Wire railway	259
Winding electro-magnets	505
Woods, Cuban, strength of	417
Wood, South American	440
Works, public	204
Worthington pumping engine	80
